About

Our strikingly good looking, multi-functional chat tables are a little higher than coffee tables and designed with both residential and commercial applications in mind. Distinguished by their singular design, each style is skillfully manufactured using long lasting materials such as powder coated aluminum, and tempered glass. Tables range from 36" to 45" wide, making them ideal for indoor/outdoor living spaces, Continental dining, and communal gathering spots. Designed for outdoor use in any climate, Fremont's finely crafted powder coated aluminum frame is virtually impervious to the elements. Fremont speaks to our customers' desire for luxury, function and ease, and demonstrates Brown Jordan's exceptional fluency with aluminum featuring over 20 various finish options.
